# Comparing Two-Digit Numbers

Meet Cassidy. Cassidy is an agriculturalist. An agriculturalist is a scientist who knows all about crops. Potatoes, corn, and bananas are examples of crops!

Today, you will help Cassidy count how many crops were grown on his farm each month. Look at the boxes below. Each box has information about how many fruits and vegetables were grown in a month.

Use one of these symbols to show which fruit or vegetable Cassidy grew more of in a month.
